

## **Changpeng Li**

*Born 1998 in Jiangxi, China. Lives and works in London, UK.*

### **STATEMENT**

---

Changpeng Li's works reflect on how the image-centric era has transformed our way of seeing, presenting the various changes brought about by flattened viewing. He invites the audience to recall those overlooked moments, evoking a sense of alienation. Through paintings, he depicts media images as a form of camera film, revealing their underlying discursive structures.
